Scott is amazing. He's honest, trustworthy and reliable. He's very talented in what he does and at a good price. Such a good find for us ladies who need help on big projects and honey-dos.

I have hired Scott several times. He has replaced warped ceiling beams, repaired kitchen sink plumbing, installed handrails for backyard steps, and repaired an air conditioning unit (after I was told by others it could not be repaired without spending several thousand dollars). His charges are fair and reasonable, and he knows what he is doing. I can definitely recommend him.

Scott installed two screen doors for me, and he did a wonderful job. He set a time with me and was here at that time and worked steadily until he got the job done. It was quite nice to find someone who knows what he is doing and does it right the first time. I am grateful to have found a great handyman and will have many jobs for him in the near future. His price for the job was very reasonable. I am very pleased and satisfied with his work.

This was my first experience using Scott's services, and going forward, he will be my go-to handyman. He is the type of guy to "measure twice-cut once." You can trust that the job will be done right, on time, and the price will be fair.

The handyman you can trust! Scott has a truck full of tools and a lifetime of experience. Have used Scott's services for years and have always been pleased with his work. Not the fastest...but it's slow and steady that wins the race. He is honest, skillful, and kind. Highly recommended!!!

We have hired Scott on several occasions. He has always been friendly, professional, and highly competent, and has done whatever he needed to do to help us out. He is an excellent worker and knowledgeable about all things concerning houses. We look forward to working with him again soon. We give him our highest recommendation. Cordially, Scott and Margaret Freeman

I wanted to write a review regarding Scott Sames completing a week-long patio job at my residence. Scott immediately called me back after I left a message and responded to my residence with a quote on the patio. Scott is a working machine, and I couldn't be happier with the job he did on my patio. I highly recommend Scott for any type of work that needs to be done on your residence. Thanks again, Scott, for your hard work.

Scott has completed several projects for us that run the gamut from baseboards to crown molding to drywall repair. Everything is done on time, and he maintains a very clean workspace. You really can't ask for anything more. We recently helped out with a major AC project in August when the temps were scorching hot - it was truly appreciated.

We have had Scott do work for us several times, and each time, we have been totally pleased. His work has included tiling a bathroom floor and counter. The result was beautiful. He has installed a laundry sink with plumbing...also, an awesome job. The last job he did for us was to remove a mantle and relocate it

to another fireplace, as well as adding a new mantle to the other fireplace. Scott's workmanship and work ethic are impeccable. He is a pleasure to have around; he does not dally but works straight through. He is honest, reliable, very fair in his costs, and does a great job cleaning up his work site. We highly recommend him!!!

I asked Scott to do some work that my homeowners association told me needed to be done. He got the job done on time and did a great job! I was not able to be at home at the time, and it was great to trust someone to be at my home alone. I will be asking Scott to do more work in the future.

Scott is professional, pays attention to detail, and his work is amazing! He rebuilt my new back porch, gate, and replaced the fascia board around my house, then replaced the rain gutters and painted the works! Super job! Highly recommended! I found him through a recommendation from a neighbor on my block.

Wanted to say we hired Scott Sames, the handyman, based on reviews posted on About Redlands. He installed a doggie door through a wall for us so our pups could have direct access to the side yard. In any modern house, this would be pretty simple. In a 110-year-old house, it's a little trickier. Scott made quick work of the job. His workmanship was excellent, and he employed techniques to minimize plaster dust as he cut through the wall. His fee was reasonable, and he will be the first person we call for our next job.

I somehow found Scott through his Facebook page, but did not contact him right off. I bought a mobile home in Yucaipa that had a 65' long deck that needed desperate repair. My intent was to rebuild it myself, but I realized it was too much for my bad back. After his latest job, which looked great, I decided to contact him. I am so very glad I did. He came out and gave me an estimate. I agreed, and in one day, he stripped the entire deck by himself. Then, for the following 2 weeks, with a partner on some of the days, he came out faithfully and worked like a horse. His attitude and work ethic are awesome. He completed the work on time and did a fantastic job. My only frustration was that I did not find him sooner. Great job, Scott, and thank you so very much for all you did.

I had been needing to get my patio awning replaced for some time when I came across a post on Facebook about Scott. I took it as a sign that he was the right one for the job, and I'm glad I did. Scott worked with my budget and rebuilt what was barely standing. He did a great job in a short time, and I will definitely be calling on him again in the future. Thanks, Scott!

Scott Sames is a wonderful contractor to work with. He has completed many projects in my home, both large and small... and I have never been disappointed! Scott has built a beautiful screened-in patio for me, finished my garage with drywall/insulation, and is currently preparing to repair/rebuild my front porch with new railing and supports. Scott is honest, friendly, reliable, and does high-quality work. I recommend him without hesitation!

Scott upgraded my tired-looking screened-in backyard patio. He did a quality job laying ceramic tile over the cracked, uneven cement floor. He also added some framing for the screens and installed beadboard paneling around the interior. I get LOTS of compliments from my friends, and my patio is now the "go-to" place for summer BBQs. Scott is my "go-to guy" for all my maintenance needs. Honest, dependable, trustworthy, and a man of his word.

Angela Brooks-Van Niel, we've used Scott Sames to repair/replace our wooden fence. He came highly recommended from a neighbor/friend, and we were impressed with the quality of his work, as well as his overall work ethic. He's an honest and trustworthy contractor, which is rare and somewhat of an oxymoron compared to past contractors we have had the misfortune of dealing with. Please, keep this man busy, but not too busy for our house calls.

Scott did a small job for someone from Chicago this week. A Chicago company had sold a desk/treadmill (I know, odd!) to a client in Redlands. Through a communication error, the purchaser thought the seller was going to have someone come put it together. The seller in Chicago got Scott's name off your site and called to see if he could help this older client. Scott was able to help and give the client a senior discount. Both parties are happy.

We've had Scott do a number of jobs for us--roofing, energy-saving window installation, painting, new toilet installation, carpentry work--and highly recommend him. He is honest and honors his free estimates, does quality work, and keeps the cost down. We're very satisfied with his work and trust him in and outside of our home when we can't be there.

This handyman is the only handyman I go to when I need anything done around the house. I'm a single mom with a rental property. There are obviously things I cannot do on my own; therefore, I call Scott Sames. Both he and his work are very professional. I will definitely recommend him!

Scott painted both of our bathrooms and left no paint mess.

He also replaced our bathroom light fixtures.

He has moved a cupboard in our laundry room, which was too low, and by moving it, we could put our freezer in.

His work was excellent, timely, and left in a professional manner.
